

# Premium Resin Abrasive Blades

*Longer Life,  
Great Quality*

Buehler's new resin abrasive blades are individually targeted to cut a full range of metallic materials and last up to 3 times longer than competitor blades. Users can rely on the consistency of the blades while the longevity leads to fewer blade changeovers and purchases.

## Efficient

Buehler's premium resin abrasive blades cut through samples fast without sacrificing cut quality. Have confidence in the consistency, cut quality and new prolonged life of these blades to improve your preparation process.

## QR Scanning

Buehler's new abrasive blades come with QR codes to access blade information and simplify the reordering process. Simply scan and follow the link to place your order.

This line of resin blades is compatible with all current Buehler equipment and any machine with a 1.25in [32mm] arbor.

The resin construction ensures users will not be bothered by the excessive odor that rubber bonded blades can produce.
