Buehler Unveils 2019 Materials Sample Preparation Equipment and Consumables Catalog

Share Article

Buehler introduces its 2019 Catalog, the complete resource for materials testing laboratories. Lab technicians, metallographers and metallurgists in industrial settings along with research and development and university laboratories will refer to the catalog for their laboratory's robust sample preparation equipment and quick ship consumables.

LAKE BLUFF, ILL. (PRWEB) JANUARY 31, 2019

Buehler, an ITW Company and a premier manufacturer of metallographic and hardness testing equipment and consumables has unveiled the 2019 104-page catalog with sample preparation equipment and quick ship consumables. In addition to the material analysis product offering, the catalog includes the Wilson hardness testers, accessories, ISO certified blocks and indenters and imaging equipment.

Equipment and consumables are listed together for Sectioning, Mounting, Grinding & Polishing, Imaging & Analysis along with Hardness Testing equipment, reference blocks and accessories. The 2019 Catalog is available in magazine format or available for download on the company's website. The all new, easy to use catalog is color coded by category for easy online or download reading – it features the companies robust sectioning equipment like the IsoMet High Speed precision cutter, the EcoMet 30 single or double platen series and the robust programmable Automet 300 grinders / polishers, the super fast SimpliMet 4000 mounting press with double mount capability, the new Wilson Universal hardness tester with DiaMet software and the OmniMet digital imaging system along with the Nikon inverted microscopes and accessories.

Additional features in the catalog include Buehler's warranty and service programs, consumables life chart, indent spacing information and company updates. It is available to download or read online in magazine format in the [Literature](#) section of the company's website. The consumables are easy to

order via the company's [online store](#). Buehler's materials analysis products are used in metallography, metallurgy and petrography in industrial (aerospace, automotive, electronics, medical device, metals, mining, ceramics, composites, and other manufacturing), research and development and university laboratories.

About Buehler

Buehler, An ITW Company, is a premier manufacturer of scientific equipment and value-added consumables for use in materials analysis with offices in nine countries, sales distribution in over 100 countries, and over 45 Solutions Centers.

In 2019 Buehler celebrates 75 years partnership with ASM International. For additional information on the Buehler product offering please visit <http://www.buehler.com> or contact Buehler at [marketing\(at\)buehler\(dot\)com](mailto:marketing(at)buehler(dot)com) or call 1-847-295-6500.

In 2006, Buehler was acquired by ITW, a developer and processor of engineered components, industrial systems and consumables and became a part of the Test and Measurement Division which also includes Instron, North Star Imaging, Brooks Instruments, Magnaflux, Loma Systems and Avery Weigh-Tronix. ITW is a global, Fortune 200 company with 51,000 employees across 56 countries. For additional information on ITW please visit <http://www.itw.com> .
